He stated further that, Prince Dapo Abiodun's Administration was committed to good governance and efficient service delivery amongst other commitment which our dear governor has expatiated at different fora. One of the essentials of good governance was Public Financial System which entailed engaging the citizens and feeling their purse to draw up a people's budget and expenditure framework that would proffer answers to the yearnings of the populace. He noted it was a unique one considering the fact that Ogun State has had to deal largely with the effects of the Covid-19 which ravaged the entire world earlier in the year. However, in the same pro-active spirit of the Governor, Prince Dapo Abiodun MFR in dealing with these effects, he explained that the Town Hall meeting was to further obtain the thoughts and contributions of the citizens for the preparation of the year 2022 – 2024 Medium Term Expenditure Framework and the 2022 Budget.

4.2. Furthermore, the Honourable Commissioner stated that, since the inception of the Prince Dapo Abiodun-led Administration in the State, the invaluable support, cooperation and assistance of the citizenry have fuelled Government's aspirations towards moving Ogun State forward. He said that, Ogun State had experienced tremendous improvement in various sectors and this was an attestation to the fact that this Administration was continually working at

eliminating poverty and under development according to best global practices that will effectively reach out to every citizen of the State, who equally have a significant role to play in ensuring that these goals and aspirations were accomplished.

- 4.3. He also reminded the citizens that the meeting was an opportunity to lay bare their opinions since it had become both the individual and collective responsibility of everyone to restore the status of our dear State beyond the setback experienced as a result of Covid-19. He equally said that the relevant stakeholders had been invited to interact with His Excellency and engage him first hand.

He noted that it was a unique opportunity to have a sincere and important discussion on the way forward.

5.0. GOODWILL MESSAGE

5.1. The Honourable Commissioner for Finance / Chief Economic Adviser, Mr. Dapo Okubadejo, in his Goodwill message, noted that the Town Hall meeting marked another day in our quest for inclusive and participatory governance in Ogun State, as was also held the previous day for Ogun East. He welcomed everyone to the town hall meeting for Ogun West Senatorial District of Ogun State. The commissioner equally noted that Ogun West was very significant in the economic profile as a result of the Industrial capacity in the Senatorial District. He explained that this exercise was global best practice in Public Financial Management Reform Initiatives because it was giving a lot of people and citizens the opportunity to participate in budget preparation and ultimately in decision making process in the State as well. For the first time, the Medium Term Revenue Strategy (MTRS) framework was introduced so as to ensure that our focus remained on what that were important.

5.2 He noted that, budget preparation could be done either by using incremental approach or zero-based budgeting approach. The State adopted the zero-based approach that makes us ask the question “why are spending money?”, “what the money is meant for?” and “how much we really need to spend?” In addition, by introducing the Medium Term Revenue Strategy, our budget preparation would no longer be hinged on the cost, but now driven largely by the revenue capacity and the potentials of the State that helps to strategized and come up with a lot of initiatives and how we could continue to remain relevant. He talked about the Ogun State Land and Revenue Management System (OLARMS) to help

harness all land resources and enable the dealing of land matters in a transparent manner. The digital transformation was an integral part of the key enablers. While this has begun yielding key results. The Commissioner also noted that as at September 2021, the Internally Generated Revenue stood at Seventy-four Billion Naira and also optimistic of reaching over 100 Billion Naira by the end of the year. He noted that this puts the State on a sustainable path to self-actualization, to economic transformation and trying to harness a lot of other resources by the creation of the economic development clusters across the State to catalyze industrialization in the State, and sustain our position as the foremost industrial hub in the country. This would help us take full advantage of the recently executed African Continental Free Trade Agreement that seeks to position Nigeria as the foremost industrial Hub in the continent of Africa. The African Continental Free Trade Agreement is actually one of the biggest economic blocks in the world. If properly harnessed would then position Africa as a competitive location and also ignite industrialization, of which Ogun State would play a key role in this range. He recalled that at the emergence of the Prince Dapo Abiodun-led Administration in Ogun State, the people were promised a good public financial management system that would be transparent, accountable with the ultimate goal of public deliverables. However, he noted that the experience has been quite challenging, yet interesting particularly from the onslaught of the covid-19 pandemic on the economic survival of the State. He stated that the State had survived so far as a result of belt tightening and cost-cutting measures to survive under the anticipated steep decline in the finances of the State Government.

- 5.3. Government will further entrench revenue strategies in 2022 with the redeployment of further digital initiatives and utmost reliance on our Internally Generated Revenue. Would continue to focus on infrastructural development of projects that were not only economically viable but also financially viable, the

much-needed resources would be provided, as well as employment opportunities for the teeming youths. He encouraged all the stakeholders to bear with Government in the task of building our State.

- 5.4. The Honourable Commissioner for Finance / Chief Economic Adviser appreciated the Royal Fathers, Representatives of Traditional Councils, Religious Leaders, Community Development Associations, Cooperative Societies, the Organized Private Sector, Professional Bodies, Trade Associations, Non-Governmental / Civil Society Organizations, Labour and Student Unions, amongst others. He implored everyone to remain committed and continually support the present Administration to deliver the dividends of democracy under the leadership of the captain of the ship, Prince Dapo Abiodun MFR.
